Sub: Commercials Vehicles facing traffic jam problems going south (Mumbai-
Maharashtra) from our Gujarat state, passing on National Highway No.:8

Respected Sir,

Commercial vehicles going south from our Gujarat state and especially, to Mumbai Maharashtra use National Highway No.8. At the same time, for the traffic of North-South corridor, the part of NH-8 coming to our state up to Khedachi Vapi is very important.

Being a president of Akhil Gujarat Truck Transport Association, I have received many complaints and representations from our state transporters as well as associations and our neighboring state associations that the rain in current monsoon season especially on the highway from Vadodara to Vapi, have caused erosion in many places as well as on Bharuch Narmada Bridge, Kim-Kamaj near Surat. There is a big problem of traffic jam between Valsad and Udvada and often the movement of traffic is stopped for 5 to 6 hours and the road from Baroda to Vapi which is cut in 3-4 hours takes 10 to 12 hours. **So far no arrangement has been made by the National Highway Authority regarding traffic management.** With this we kindly request you to help the vehicle owners as well as the transport companies. Who have faced worse situation in delivering the goods on time during the last 5 (five) months

You are, therefore, requested to kindly take necessary action, at the earliest

With warm regards,

Yours sincerely,

(Vasanbhai Ahir)
