Subject: prices increase

Dear Sir,

As discussed with you, please find the tentative rates increase during last 8 years. Here I have taken the average price increase throughout the year. In year 2010 October Euro norms changed from Euro II to Euro III

From 1st April there is again change from Euro III to Euro IV for which we have shown tentative increase 2 – 2.50 lacs.

Here due to prices increase from vendor throughout the years in some quarter company has to increase prices which also we have consider apart from Norms change.

Model 3118 Cover 52.

year of manufacturing	Prices average for year	Norms change
2008	1587556	Bsii
2009	1641993	Bsii
2010	1781142	october BS iii implemented
2011	1977319	october BS iii implemented
2012	2077327	october BS iii implemented
2013	2210975	october BS iii implemented
2014	2231473	october BS iii implemented
2015	2351923	october BS iii implemented
2016	2569458	october BS iii implemented
2017	2639458	october BS iii implemented
April 1st 2017	BS4 Implementation	April 2017 BS4 will implemented approximately prices going to increase by 2- 2.50 lacs

For any further help or support please let us know.

Regards,

Darshan.
